176 Wells Update Oct. 6 2015.xlsx

This is the latest update of the 176 wells from DOGGR. I'm on a call until about 10:15.

Subject: 176 Wells

David:

Please find attached the list of the 176 wells. Please note that we have 32 wells that are impacted by the October 15th date, of which 18 will be impacted by needing to shut-in. There are two wells that we believe should be considered as hydrocarbon producing, and these are highlighted in light brown. We identified these because they could be added to the list bringing the total up to 34 wells. Please let me know if you have any questions.

Thanks,

Robert S. Habel, Technical Services Manager
